I wish to claim ____ years, ____ months and ____ days of military service (no more than five years may be claimed). I understand that military service which has been credited in the Public Employees' Retirement System (PERS) is not creditable in the TRS; and that no more than ten (10) years total military and outside teaching service is creditable. However, if entry into the military service is immediately preceded by the TRS membership service and discharge is followed by membership service within one year, the ten-year limit does not apply. I understand that compound interest as prescribed by regulation will be added to my military indebtedness until it is paid in full or I retire, whichever occurs first.
