Summary of Change:
Addition of the AMS Thresholds Change Table to Procurement Tools and Resources

Reason for Change:
The purpose of this addition is to add the AMS Thresholds Change Table which captures all threshold changes made throughout AMS in the April update. The ACT working group's purpose is to update AMS thresholds to be as flexible and current with government wide thresholds. The change also implements the AMS Risk Threshold to reduce the number of changes to AMS as it relates to thresholds by creating a standard term within AMS for acquisition related actions at the $250,000 threshold. (i.e., AMS Risk Threshold (ART)). Furthermore, the addition captures changes in AMS references where $10,000 is now referred to as the micro-purchase threshold.

Development, Review, and Concurrence: AAP-110
